Introductory Note on Greer

I believe Greer is one of the more inspired and credible voices on paranormal UFO phenomenon, largely because he takes on the subject with not only a rigorous method, but focuses on testimonials from credible military whistleblowers. I also appreciate that he has taken action to the courts to try and release confidential government files on this information.

I do caution against his methods he calls “CE5” or close encounters of the 5th kind, wherein he attempts to make contact with extraterrestrial life. His methods for doing so are typically cooky and strange. Perhaps some of these strange methods work, but they are, to me, unverifiable, and more silly than useful. I caution against attempts at telepathy, energy healing, and other dangerous methods which may bring unholy forces.

I believe we should gather whatever good we can, and reject whatever falsehood we encounter. For this reason I proceed to present what I believe are important findings of Dr. Greer.

Dr. Steven Greer Amazon profile

Dr. Steven Greer is one of the world’s foremost authorities on the subject of UFOs, extraterrestrial intelligence and technologies, and initiating peaceful contact with interstellar civilizations. For over 30 years, Dr. Greer has provided briefings for senior government officials across the globe, conducted numerous media interviews, and delivered hundreds of lectures. He has also written five books and produced feature film documentaries that have

been seen by hundreds of millions of people. Dr. Greer's relentless efforts towards the disclosure of classified UFO/ET information have inspired millions of supporters around the world.

Dr. Greer's career began as an emergency and trauma physician, where he worked as an emergency room doctor and ultimately served as Chairman of Emergency Medicine at Caldwell Memorial Hospital in Lenoir, North Carolina. In 1987, Dr. Greer became a member of the prestigious Alpha Omega Alpha Honor Medical Society.

While Dr. Greer's interest in the UFO/ET theme began at an early age, his increased attention to the subject did not develop until well into his medical career. At that stage, Dr. Greer's ongoing personal research into UFOs, ETs, and new energy systems led him to the knowledge that information and technologies surrounding these subjects were being kept from both the public and the highest ranks of our government, through decades of highly classified programs. It was this alarming realization that inspired Dr. Greer to begin his focused work on disclosure.

Dr. Greer initiated his work in the UFO/ET area by founding the Center for the Study of Extra-Terrestrial Intelligence (CSETI) in 1990. CSETI was established as a diplomatic and research-based organization to make peaceful contact with extraterrestrial civilizations. Soon after, Dr. Greer founded The Disclosure Project, a nonprofit research initiative aimed at publicly disclosing the extensive and deeply classified information about UFOs, extraterrestrial intelligence, and advanced energy and propulsion systems.

While CSETI continued its diplomatic efforts throughout the 1990s, The Disclosure Project made substantial progress towards the release of classified UFO/ET information, culminating in the groundbreaking National Press Club Disclosure Event in May, 2001. During this event, over 20 military, government, intelligence, and corporate witnesses presented compelling testimony regarding the existence of extraterrestrial visitations as well as the reverse engineering of their energy and propulsion systems by classified government projects. The event reached an audience of over one billion people through both real-time streaming and coverage on top-tier, global media outlets.

In addition to Dr. Greer's ongoing efforts towards peaceful extraterrestrial contact and classified information disclosure, he has worked extensively to bring together scientists, inventors and leaders across the globe to advance new, clean technology energy systems. Dr. Greer is one of the world's most recognized strategists focused on transforming our civilization from one of fossil-fuel reliance to that of clean, free energy systems.

Dr. Greer has been seen and heard by vast audiences worldwide on CBS, the BBC, The Discovery Channel, The History Channel (including the Ancient Aliens series), Thrive and through a variety of global news outlets and social media networks. Millions have seen his groundbreaking documentaries, *Sirius* (2013) and *Unacknowledged* (2017), the latter of which yielded a companion book of the same name.

Dr. Greer is currently in production on his third film, *Close Encounters of the Fifth Kind: Contact. Consciousness. And the Human Future*, set for release in late 2019.

FALSE FLAG:

CIA director walter smith - says problems of UFOs have implications for psychological warfare and intelligence operations.

aka its easy to setup a false flag operation. a false indication/warning, an illusion of a threat by attacking self and blaming desired enemy, effective at uniting public against something. We did it in gulf toncan in veetcong to expand Vietnam war to help war profeteers. same with Cuban refugees dressing up and attacking and singing US ships etc, to make Americans made so we could invade and occupy CUba. Introductory Note about Greer from Rodney Cluff on How Greer is still alive. Greer touches briefly on this in his book but Cluff goes into greater detail from information elsewhere:

Question: Why haven't they killed Greer?

Answer: They did try to kill him with cancer like they did to our expedition leader, Steve Currey, by giving him head cancer. But he's a smart doctor and cured himself. He says they tried to give him an unlimited limit credit card to shut up, but he told them he is not afraid of their threats. He already died once and is not afraid of death. And he is still trying to get the government to bring these unacknowledged deep black projects out of the underground and give the people the flying saucer technology they have.

He also said he has knowledge about these people that threaten him, and if they do try to kill him, he has his secret knowledge of them ready to go out to all the people of the world the second they attempt to kill him.

They deep black unacknowledged project leaders have killed some of his close friends. He's working with some congressmen to get them declared illegal masterminds, and go after them. He says the US Presidents are afraid of them. The presidents believe they will get killed if they go after these rouges. He has told these rouge military men they are crazy to think the aliens are enemies, because with the higher technology the aliens have, they could have taken us out a long time ago. Yet they never fight back, and allow their craft and occupants to be knocked out of our skies. In fact, the US officially does not consider the aliens to be a threat to national security. But our government is certainly a threat to them. We have video proof that we have targeted their craft. There is a video from the International space station showing a UFO traveling along and then suddenly it turns 90 degrees to the right and zooms further out into space when a particle beam weapon passes up from earth through its previous flight path. But sometimes they do get knocked out of the skies. Greer's expert witnesses have testified of many downed alien craft that are taken to Area 51 to reverse engineer. Col. Corso described in his book, The Day After Roswell how he was able to get several alien technologies back engineered by US industry with parts from the 1947 alien craft that crashed outside Roswell NM, such as fiber optics, integrated circuits, food preservation, night vision goggles. Dr. Greer says programmed life forms and flying saucers have been back engineered successfully by these unacknowledged projects. They are financed with drug sales and skimming dollars off defense contract authorizations. The fact that the defense department audits have never been able to account for the money they get from Congress.

Now highlights from the book:

Talks about little aliens fit in these little ships different reports of them alive and dead and talks about unlimited energy which people keep crushing and how Tesla found out this cheap energy and one of the Big Rich guys

squashed it did some political stuff made him get rid of all his supplies and notes on the project cuz they just spent a bunch of money running copper I think it was HP Morgan or something like that

He has a few wrong ideas like most people do about human caused climate change and evolution

Have some ideas about zero point energy of a particle held still actually doesn't have zero energy as a lot

He talks about energy sources that are unlimited and how people try to stop those because of an economy based on petroleum

Talks about water as a fuel putting the elements into hydrogen and oxygen etc

Talks about electricity fuel with no moving parts

Talks about a guy being hunted for his new more efficient engine cars getting stolen everything getting taken government agencies confiscating everything etc

There's top clearance the president doesn't have it's called cosmic clearance and it's on the UFO alien topic

President Kennedy said he knew UFOs were real and he wanted the truth to come out but it was out of his hands and he didn't know why

A lot of the time projects are overcharged so that a bunch of money can go into the black budget. A lot of time there's private companies within companies within companies and their whole job is to stifle off the money toward black projects

The masses must demand full disclosure on these anti-democratic secrets of the government. Very cold water said it was a mistake for the government to keep these secrets. The masses have great power to change things it was the masses who brought down the Berlin Wall etc.

1966 electromagnetic propulsion of a crap scene coming out of and going into the water water is moved before it etc

The first electromagnetic propulsion system was Disneyland monorail

An area around four corners New Mexico but certain radar signals there's been tons of alien crashes there because when they fly over the area and they encounter the signals it messes up their craft and they crash.

President Reagan said there is many as 37 known aliens species at this time

President Carter saw the body of an ET and cried and said they are alive

Reports about people who have documented evidence who go missing their murder

People discussing new technologies getting their phones tapped even on supposedly secure lines people showing up to meetings about these things who weren't supposed to be there from different government agencies etc

People being taken out by high speed impacts by reinforce vehicles

A former New York times reporter said. The CIA owns all the major news companies the job of a journalist is to lie to the public to get their daily bread, intellectual prostitutes

There have been government committees to passed out on UFOs correction cast doubt

The CIA fabricates or kills any story to support their agenda

Phoenix 1997 lights of various sizes reported by thousands. One was a triangular v-shaped chip several football fields long. The mayor made a joke out of it and made it taboo for anyone in the Science World to investigate it.

We don't have a free press we don't live in a democracy we don't have a legitimate scientific establishment.

See siriusdisclosure.com (drstevengreer.com) for more testimonials etc this book only covers about 1% of the material he has

Major media outlets have government operators to make sure nothing gets published that they don't want to

They saw on radar for a half hour a UFO chasing a Japanese 747 check. The pilot also visually saw it.

When a bunch of press comes to ask the government about major UFO sightings they give the standard answer we are still investigating. Meanwhile they scrub all the evidence.

Groups involved in UFO sightings reporting to the government go to secret meetings which they are forced to swear they never went to

If you blow the whistle on something you saw the CIA does everything to discredit you saying they approve you are on drugs or that your parents were communists etc and you can never get another job etc

Often real UFO stories are portrayed in the tabloids to intentionally credit them to make them look phony

President Jimmy Carter said he had seen a UFO about the size of the Moon it changed colors etc he said he would never make fun of anyone that says they had seen a UFO

Marilyn Monroe said she was going to hold a press conference to tell what she was told by Jack Kennedy about UFOs then she suddenly died of a drug overdose but it was easy to tell she was murdered.

Military personnel assigned to watch the lighthouse look forward to seeing a UFO some say they mistook it for the lighthouse but they saw both the same time

One siding location there was cut branches from where the craft came down and the radiation in the area was many times higher and heard movement inside it. Military people freaked out and cleared the area animals were running away from the area namely deer.

A basketball sized amber light moving quickly in the sky. There were people seen 4 ft tall with clothing. One of the key people who gave evidence of this reports he has never taken any money from anything related to the event. Three large triangle shaped crafts were overhead and they were smaller blue orbs going around one was following one of the guys he guard his truck and came through his truck windshield kicked his windshield out the orb past for the other side of his truck

One guy trying to report about it called his mom the line was cut.

The base involved with the siding at the highest suicide rate in other words people who are talking about it etc were killed.

People present were given generic statements pretty typed about what they saw which of course was not what they saw which they were expected to sign it said they were off duty and that all they saw were some lights in the trees. They were told they had no choice but to sign it.

The soldiers who witnessed these events were told never to talk about it they were told that it was already known that more advanced civilizations have been coming to that area for some time. They did radiation detectors on them they confiscated anything a rock of ranch anything that they might have had from the area they were told their phones will be topped for as long as they're in the military and they should go on about their lives and not bring it up not even with each other.

They were experiencing strange dreams over the next month or so they were supposed to call a certain number. They had recorded the phone call he made to his mom before he got cut off.

The person talking to them show them a tape to give them some context to what they had seen it included footage from the Moon landing which showed various paranormal things going on hurting correction including Huge box like structures taking off from the Moon .

The guy talking about it got his passport revoked has had phone problems of strange natures throughout life it was initially taken to an underground base etc.

I just told the passport revocation was because of the things he was talking about.

He was advised to steal his records to prove his military service because they were going to vaporize them.

The guy is a former Chief of defense staff

They have since scrubbed the area clouded all down no vegetation will grow there.

Tells about a man who had brief access to the Vatican Library files on UFOs. Saw actual photos of crashed UFOs. Just told there are at least two to six intelligent civilizations in the galaxy.

The astronauts were told if they were to disclose any list it would be the death of them and their families.

they said it was weather balloons over the Roswell crash site not UFOs this is an example of disinformation to Stonewall the public

When we are a peaceful people the cosmos will open up to us in welcome us

During the landing Armstrong says they are here they're right over there look at the size of those ships and they don't like us being here. The remark was taken out of public broadcasts.

Note some people question the reality of the Apollo 11 landing based on the interview with the astronauts after the fact and how they don't look excited like they just got back from the Moon. But what if they are in shock about the ET life forms and crafts and structures they saw there and disheartened by the government's insistence on them not talking (lying) about it.

They have pictures of the base on the dark side of the Moon. Many large buildings some of which were spherical and dome shaped.

April developing the images of the moon they see these alien bases and they say we always have to airbrush these out before releasing the images to the public.

One man involved in burning photographs of UFOs on the moon was commanded not to look at them he did look and saw them the UFOs and was hit in the head with a gun and still has the scar.

If the ET were hostile they could have destroyed us a long time ago

Close encounter of the first kind is where you see something maybe 500 ft away close encounter of the second kind is where it manipulates something like changes how of machine functions or a vehicle functions or some weather or something close encounter of the third kind is where you see some sort of an alien some sort of a person which is the pilot of a craft etc go some counter of The Fourth kind involves the witness experiencing a transformation of their sense of reality close encounters of the fifth kind Steven Greer has coined meaning interspaces relations humans initiating contact with ETs consciously proactively
