## Introduction to Public Health Conspiracy to Get Gain: Your Lord & Savior BIG PHARMA

The Word of Wisdom in D&C 89 warns of people who conspire to get gain. They do this with foods etc. Has anyone asked who is making money from vaccines? This is the new drug which is most profitable to conspirators. Of course the vaccine industry isn't the only arm of Big Pharm who stands to gain.

Be open to a new understanding of the word of wisdom and take your health into your own hands.

So what HAS the Lord recommended to fight off diseases of the last days? Eat plants. Avoid animal products. Focus on grains, fruits, vegetables, herbs. Be wise and temperate about what you put into your body. Treat your body like a temple.

## Excerpts from Lecture Notes on Joel Skousen's 2021 Annual Briefing Regarding COVID-19: Phony Science, Freedoms Lost, etc.

### **COVID**

1. Never deadly except to immunodepressed overweight people. CDC says less than 10% of those attributed to covid death were just due to covid.
2. PCR test was never used to track viral infection before. Can inflate it however want. The labs just get RNA doping and follow instructions.
3. "Asymptomatic carriers"
4. Developed in a lab and enhanced, but not that dangerous.
5. When viruses mutate they get less dangerous.
6. Can't test without full genome sequence, hardly any can do that, if they say its Omicron it's a lie.
7. Case numbers are based on testing not symptoms.

8. Almost all omicron cases are from people who were vaccinated (vax causes it?). Minor symptoms only.
9. Covid conspiracy is unique: requires not just believing them, but participating. 80% of Americans are participating, didn't even question it.
10. The only hope is the courts striking down Biden mandate. But they'll never give up.
11. Stay out of hospitals and public schools and universities, all will buy into vax mandate
12. Vax is the real bio weapon. Spike proteins damaging neurons, heart, many systems. 75 documented symptoms of the spike protein damage, hard to trace.
13. 18k have died from vax around the world
14. Good people are buying into this, making it very difficult to combat
15. Plan to get out of the establishment, they are relentless, giving in to their wishes won't stop
16. You can't trust anything our gov says or does anymore, that's the bottom line

### **Freedoms lost from Covid**

1. Pray to thank god for the few remaining freedoms that we have. This gets the message to people without preaching to them.
2. So many businesses no more open to non-vax people
3. Internet searches produce mainstream articles for the first 12 or more pages

## [Phony Pandemics that were Hyped prior to Covid](#) [19 – From Book Review of “The Real Anthony](#) [Fauci”](#)

Book review by Joel Skousen in the 12.24.21 World Affairs Brief

-The 1976 Swine flu “epidemic” which was falsely claimed to be the same virus as the 1918 Spanish Flu. It was supposed to kill millions but only killed one person worldwide. They created a vaccine and falsified the trials. That vaccine caused 500 cases of degenerative nerve disease and 32 deaths.

-2001 Mad Cow Outbreak in UK: Neil Ferguson of Imperial College Modeling Center (funded by Bill Gates) predicted 136k deaths from mad cow, forcing the killing of 11M sheep. The actual number of deaths was 177.

-2005 Bird Flu Pandemic: Neil Ferguson was again trotted out to do computer modeling on this disease outbreak and predicted 150M deaths. Instead, only 282 people died worldwide. Ferguson did it again during the Covid hype by modeling 2.2 million deaths from Covid 19 in the USA alone. The actual deaths from Covid without other co-morbidities was less than 10k.

-2009 Swine Flu in the UK: Ferguson predicted 65K Brits would die. Only 457 actually did.

-2009 Hong Kong Swine Flu: Dr. Fauci declared this a worldwide pandemic after only 145 people had died worldwide. In a sneaky switcheroo, the **WHO changed the definition of a Class 6 Pandemic by removing the requirement for “mass deaths.” You could now have a pandemic with zero deaths.** As in all these false pandemics, there were many more deaths in women from the emergency approved vaccines that were developed to supposedly protect them from it. After women received two seasonal flu vaccines to combat the Swine Flu there were reports of a seven-fold increase in fetal loss. The Glaxo vaccine, funded by Fauci’s NIAID killed so many women and children and health care workers with various forms of brain damage that it was finally withdrawn.

-2016 Zika Virus: This mosquito-borne virus outbreak in Brazil was played up by Dr. Fauci and others as the cause of a rash of microcephaly brain damage in newborns. The microcephaly problem was eventually traced to the DPT vaccine pushed upon Brazil. The Zika virus never got deeper into the USA than Texas and Florida and zero cases of Zika were linked to Microcephaly. Still Fauci continued to push for a vaccine solution squandering billions of dollars. No vaccine was forthcoming.

-2016 Dengue Fever: This false pandemic came after a decade of funding trials for a flawed dengue fever vaccine, Sanofi’s Dengvaxia, that resulted in killing 600 children in the Philippines due to “pathogenic priming”—the children were

dying when exposed to the wild virus after the vaccine primed their immune systems to overreact to it.

## 10 Draconian War Games Leading up to Covid-19 – From Book Review of “The Real Anthony Fauci”

Book review by Joel Skousen in the 12.24.21 World Affairs Brief

Chapter 12 detailed all the ten or so wargaming the conspirators did in the years leading up to Covid 19 which planned for draconian control measures against a population they knew would be resistant to mandatory vaccination campaigns. Instead of planning to decrease morbidity by improving immune response, losing weight and other known effective measures, virtually every war game pandemic scenario **“war gamed how to use police powers to detain and quarantine citizens, how to improve martial law, censor dissidents and how to mandate masks, lockdowns and coercive vaccinations.** “Here they are:

-“Dark Winter” in 2001: Used the anthrax attacks to justify the extreme measures.

-“Atlantic Storm” in 2003, 2005: which simulated a smallpox attack, justifying a global stockpiling of dangerous smallpox vaccines, which Bio Port dumped on the US government.

-“Global Mercury” in 2003: Another terrorist simulation of a smallpox outbreak (watch for it; it could still be coming)

-SCL Simulation of 2005: SCL takes on the task of convincing an entire population to go into lockdown because of a mythical cloud of toxic chemicals released.

-Lockstep Simulation 2010: Details the involvement of the CIA’s investment arm In-Q-Tell in Silicon Valley to control censorship in relation to the pushback against pandemics and mandated vaccines.

-MARS 2017: A joint military exercise of Western militaries simulating China responding to a respiratory virus named MARS.

-SPARS Pandemic: Sponsored by Bill Gates, this war game was projected way into the future(2025-28) and involved mass coercion to take a vaccine, involving the world's military for enforcement.

-“Clade X” in 2018: Hosted by the Gates-funded Johns Hopkins Center for Health Security.

-“Crimson Contagion” 2019: Dr. Robert Kadlec, who for decades was part of the Deep State's military bioweapons program, led this scenario of a deadly disease outbreak. This deep state doctor was hired by Donald Trump to lead the nation's Disaster Preparedness response—a knowing conspirator and leader in planning for the Covid pandemic.

-“Event 201” in 2019: The war game that took place just as the Covid pandemic had started to test out the extreme censorship measure the various government/private partnerships would have to take to quell dissent.

## [Joel Skousen's Complete Book Review of “The Real Anthony Fauci” by Robert F Kennedy Jr. – Biggest Medical & Vaccine Fraud in World History](#)

Excerpt from the World Affairs Brief, Dec. 24, 2021.

I was pleasantly surprised to receive my copy of “The Real Anthony Fauci” within a week of ordering, rather than the projected 15 January delivery date. I immediately set to work tackling this 450 page tome with small font and tiny page margins that under normal typesetting would probably be more like 700-800 pages. And conservatives do have to overlook Democrat Robert F. Kennedy Jr's naive, passing remarks lauding socialist Great Society programs, FDR, and communists like Martin Luther King and Nelson Mandela.

I'm no novice to tough technical reading, but I have to admit this book was a daunting 4 day task, since it was jam-packed with names, facts, dates and excruciating details of the **biggest medical and vaccine fraud in world**

**history**, that has been going on for decades. Both Anthony Fauci and Bill Gates are the most prominent leaders in all this corruption and conspiracy.

As a disclaimer, the word “conspiracy” is only mentioned twice in the entire book, but believe me, this book is **full of conspiracy facts**, not theory. In fact the expose is so complete and the pattern of corruption and coverup of vaccine side effects so repetitive and pervasive that it becomes nearly bewildering to take it all in and remember.

But one thing every honest person will take away after reading this book: **they will never trust or take another vaccine again**—not only because of the massive falsification of vaccine trials but because all vaccines in the future, including the flu shot, will be of the dangerous mRNA type.

It is no wonder that Dr. Fauci, the master of verbal lies, diversions and dissembling, can only protest that this scathing attack on Fauci by Robert Kennedy Jr must mean he is mentally unstable. He can’t even begin to answer any of the specific charges in this book, which are so conclusive and well documented. He doesn’t even dare begin or attempt a counter lest it open Pandora’s box and induce even more people to read this top-selling book in the nation on Amazon which the mainstream media will never mention or acknowledge. The NY Times has used its manipulated criteria to downgrade it from #1, to the top-15. As Kennedy amply points out, censorship of all medical truth is part of the massive conspiracy.

**This book is the ultimate ignorance killer** for all those lazy doctors out there who only parrot the non-stop medical propaganda filling the media and the airwaves. It’s your weapon to help them strip away their self-imposed blindness as you dare them to read it and refute any part of it. It’s that powerful. Let me give you some dramatic examples of proof of a massive conspiracy to lie, deceive and promote vaccines that are deadly, coupled with the campaign to denigrate and attack the re-purposing of expired patented drugs like hydroxychloroquine and ivermectin.

1) The direct evidence from doctors using hydroxychloroquine to successfully treat Covid in the early stages became so overwhelming that the Gates Foundation (through well funded surrogates) commissioned a claimed double blind study on hydroxychloroquine effectiveness. But instead of using the standard dose of 400mg they upped it to **six times the normal dose** to 2400mg, at which point it became toxic, killing several patients in the trials. The negative results of this skewed and deadly trial were published in the prestigious journals Lancet and New England Journal of Medicine, and were only withdrawn under

pressure from critics when the deadly manipulation of the trial results was exposed by whistle blowers.

2) Dr. Fauci and the vaccine industries have always claimed to use double blind, random trials to prove the safety of all vaccines, but the book shows conclusively that Fauci and the Professional drug trial Investigators (PI) never do a true control group. They most often will give another drug or vaccine that has side effects to the control group instead of a true saline solution as placebo, in order to make the vaccine group look better. Another trick is to end the control group early when the results are unsatisfactory, and never perform long-term trials over multiple years to avoid showing long-term damage, under the guise of the need for “emergency authorization.”

3) Chapters 3 through 6, which span over 150 pages, are dedicated to the decades-long quest to extract billions in tax dollars from Congress to develop an AIDS vaccine and related drugs. Dr. Fauci and Big Pharma kept pushing the highly toxic AZT drug which ended up killing thousands of AIDS patients. During the trials, instead of taking AIDS patients off of the known toxin AZT when it started poisoning their blood, they partially hid the affects by giving recipients daily blood transfusions to purge the AZT from their system—a direct falsification of the trials. This pattern was consistent in virtually 100% of the AIDS drug and vaccine trials. None have ever worked and never will. Whistleblowers who reported the falsification of the trials were silenced and Dr. Fauci continued to use outright lies before the media to promote the drug AZT and downplay its deadly effects for decades.

4) Chapter 7 details Dr. Fauci’s experiments on orphan children in NY and other states in drug and vaccine trials which killed hundreds of young victims that were buried in mass graves. None of the children’s guardians were allowed to see the list of known dangerous side effects, and many of the children who refused to take the drugs had tubes inserted in their stomachs via surgery against their will to deliver the drug.

5) Chapter 8 details the billions in taxpayer funding for “AIDS” that allowed Fauci to bribe corrupt African regimes to accept dangerous vaccine trials among their indigenous people—mostly women and children. Dr. Fauci continued to fund these trials after they showed deadly side effects among indigenous African people and denied local doctors informed consent about the many known dangers. Only after thousands of women and children died did the African countries begin to reject the trials and expel the promoters from their countries. But replacement regimes, greedy for Western money, kept accepting the huge bribes and allowing new and different trials to take place—all with the same

deadly side effects, which Fauci and Gates continued to downplay. It's been a deadly business going on for decades in Africa of covering up severe injury and then lying about the safety of these vaccines—none of which ever passed a single safety trial.

6) RFK, Jr. details all the poisonous effects of the DTP vaccine in Africa, Mexico and the Philippines where they laced the Tetanus shot with a chemical that caused spontaneous abortions and sterility. It was clearly a planned attack on these second and third-world countries' high birth rates.

7) He covers the high autism rate caused by the DTP vaccine and how Dr. William Thompson, the chief whistleblower who testified about how officials in the FDA ordered him and others to cover up the autism link, was fired and removed from his position.

8) Chapter 11 details all the phony pandemics that were hyped prior to Covid 19:

-The 1976 Swine flu “epidemic” which was falsely claimed to be the same virus as the 1918 Spanish Flu. It was supposed to kill millions but only killed one person worldwide. They created a vaccine and falsified the trials. That vaccine caused 500 cases of degenerative nerve disease and 32 deaths.

-2001 Mad Cow Outbreak in UK: Neil Ferguson of Imperial College Modeling Center (funded by Bill Gates) predicted 136k deaths from mad cow, forcing the killing of 11M sheep. The actual number of deaths was 177.

-2005 Bird Flu Pandemic: Neil Ferguson was again trotted out to do computer modeling on this disease outbreak and predicted 150M deaths. Instead, only 282 people died worldwide. Ferguson did it again during the Covid hype by modeling 2.2 million deaths from Covid 19 in the USA alone. The actual deaths from Covid without other co-morbidities was less than 10k.

-2009 Swine Flu in the UK: Ferguson predicted 65K Brits would die. Only 457 actually did.

-2009 Hong Kong Swine Flu: Dr. Fauci declared this a worldwide pandemic after only 145 people had died worldwide. In a sneaky switcheroo, the **WHO changed the definition of a Class 6 Pandemic by removing the requirement for “mass deaths.” You could now have a pandemic with zero deaths.** As in all these false pandemics, there were many more deaths in women from the emergency approved vaccines that were developed to supposedly protect them from it. After women received two seasonal flu vaccines to combat the Swine

Flu there were reports of a seven-fold increase in fetal loss. The Glaxo vaccine, funded by Fauci's NIAID killed so many women and children and health care workers with various forms of brain damage that it was finally withdrawn.

-2016 Zika Virus: This mosquito-borne virus outbreak in Brazil was played up by Dr. Fauci and others as the cause of a rash of microcephaly brain damage in newborns. The microcephaly problem was eventually traced to the DPT vaccine pushed upon Brazil. The Zika virus never got deeper into the USA than Texas and Florida and zero cases of Zika were linked to Microcephaly. Still Fauci continued to push for a vaccine solution squandering billions of dollars. No vaccine was forthcoming.

9) Chapter 12 detailed all the ten or so wargaming the conspirators did in the years leading up to Covid 19 which planned for draconian control measures against a population they knew would be resistant to mandatory vaccination campaigns. Instead of planning to decrease morbidity by improving immune response, losing weight and other known effective measures, virtually every war game pandemic scenario **“war gamed how to use police powers to detain and quarantine citizens, how to improve martial law, censor dissidents and how to mandate masks, lockdowns and coercive vaccinations.** “Here they are:

This deep state doctor was hired by Donald Trump to lead the nation's Disaster Preparedness response—a knowing conspirator and leader in planning for the Covid pandemic.

-“Event 201” in 2019: The war game that took place just as the Covid pandemic had started to test out the extreme censorship measure the various government/private partnerships would have to take to quell dissent.

10) None of the above 10 false pandemics called previously were capable of generating the fear and public compliance desired by global elites until the Covid-19 virus was created in a lab with the hybrid spike protein capable of wreaking havoc on the organs, lungs, and blood vessels of older, chronically ill people. The book details how the CDC had to falsify the number of Covid deaths by forcing health officials to label nearly every death as Covid. Flu deaths literally ceased to exist after Feb 2020, and never reemerged the following winter. This falsification of fear of “cases” was accelerated by the use of the horrible PCR test that generated over 90% false positive cases.

11) Another key theme throughout every chapter is the way in which Dr. Fauci and Bill Gates formed a team, in collusion with the mainstream media, to put massive pressure on Congress to fork over billions in appropriations for every pet disease they could engender—and the promise of a vaccine to “solve the problem”, which never materialized in any form that was safe and effective ever—including the 1986 newly added list 18 vaccines that would be mandated for all children in public school.

None of those 18 vaccines for children had ever been proven safe in vaccine trials. All the trials were cut short and falsified. The primary false disease hyped during the past 20 years to drum up billions in funding was AIDS, which they blamed on a retrovirus HIV, which has never been proven to exist—only its claimed antibody test. In fact retroviruses have never before been proven to be pathogenic—they just co-exist in all tissues. It’s been a huge scam that is still going on.

12) With all of the corruption and control that comes with Congressionally mandated funds, the voices of dissent were silenced, and RFK, Jr. covers several cases in detail. The most disheartening narrative of the entire book is that **no one has ever been brought to account** for all these deaths and injuries and violations of law. In fact, not a single perpetrator has lost their job or been demoted. Most have been given awards. Not even any lowly scapegoats have been disciplined. That’s how protective the medical system is of its own corruption—because so many tens of thousands are involved.

Despite all his crimes, Dr. Anthony “Teflon” Fauci has kept his job for 50 years and is the most highly paid government employee (at nearly half a million dollar salary per year), despite receiving millions in royalties from vaccine patents. That’s how effective his de facto immunity is.

In contrast, many of the honest doctors and virologists tasked with checking up on vaccine trials have been disciplined, fired and censored for complaining about how trials have been falsified. All of this documentation on these powerful crimes proves the point I’ve made for years: that there is a system of immunity for participants in Deep State crimes so pervasive that it shields them forever, unless they do something so stupid it can’t be covered up. But even that caveat doesn’t seem to apply to the medical establishment. There has never been a crime against humanity too big they will not cover up!

That said, the first major legal suit has been filed before the International Criminal Court against Anthony Fauci, Bill Gates and the coterie of globalists around Klaus Schwab over violations of the Nuremberg Code based upon forcing experimental vaccines upon people without informed consent and other crimes associated with the falsification of data surrounding the Covid pandemic. I think the chances of the suit succeeding are zero, but we’ll be watching how the international Powers That Be (PTB) justify evading its evidence.

Today we face the insurmountable challenge that the propaganda and lies about vaccine success has been so pervasive for so long (the book reviews all the evidence that infectious disease was totally in decline before vaccines came

along, due to improvements in sanitation and nutrition) that it has become one of the Big Lies that is too entrenched to root out. Virtually no politician today has the courage to combat or challenge vaccine orthodoxy directly without being vilified and ejected from society. No doctor can survive challenging vaccines and keep his license.

In continuing this conspiracy to cover up for vaccine damage, Dr. Joseph Mercola details this week how the CDC, and FDA continue to deny there are any deaths from Covid vaccines, despite the overwhelming circumstantial evidence from VAERS reports. Mercola documents for the first time how the CDC keeps tampering with the VAERS reports, by removing an average of 100 negative reports every week.

The world of vaccines has become such a powerful, all encompassing conspiracy, it is beyond reversal or redemption. This book proves that beyond a doubt. It wouldn't be that way if they produced a vaccine that would kill most people, but that's not going to happen despite what some doctors claim. Even the Columbia University estimate of 400K deaths due to the Covid vaccine has been totally covered up and made to disappear. More realistically, people who keep taking vaccines will probably become more susceptible to disease over time, and succumb to early deaths, but it will always be blamed on something other than the vaccine. Count on it.

Sadly, so many doctors and nurses are trained to follow hospital protocols without question. With the threat of losing hospital privileges and even their license, they have no incentive to challenge dangerous protocols like using Remdesivir and ventilators for Covid. RFK jr. tells the entire sad deception about gaining approval for Remdesivir, despite its severe toxicity. But it is still the only authorized drug against Covid at hospitals all over the USA.

## [1918 Spanish Flu Deaths Caused by Vaccines](#)

Spanish Flu deaths were not really caused by a natural disease. The true cause of the Spanish Flu death rate was an experimental meningitis vaccine that was given to both soldiers and civilians.

<https://rightsfreedoms.wordpress.com/2021/08/13/the-1918-spanish-flu-only-the-vaccinated-died/>

The article says:

“Autopsies after the war proved that the 1918 flu was NOT a “FLU” at all. It was caused by random dosages of an experimental ‘bacterial meningitis vaccine’, which to this day, mimics flu-like symptoms. The massive, multiple assaults with additional vaccines on the unprepared immune systems of soldiers and civilians created a “killing field”.”

Those not vaccinated were not affected:

## [Review of the 2021 Woke Racial Agenda](#)

Victor Davis Hanson is a classicist and historian at the Hoover Institution at Stanford University. He wrote this brilliant summary of how Americans are responding to the woke movement: (see [https://www.dailysignal.com/2021/12/09/the-woke-got-what-they-wanted-and-then-what/?utm\\_source=TDS\\_Email&utm\\_medium=email&utm\\_c](https://www.dailysignal.com/2021/12/09/the-woke-got-what-they-wanted-and-then-what/?utm_source=TDS_Email&utm_medium=email&utm_c))

The “woke” movement was giddy after Jan. 20, 2021. The left controlled both houses of Congress. President Joe Biden was drafted as the necessary veneer of 1980s Democratic normality to ram through an otherwise hardleft agenda. All the major cultural, financial, economic, entertainment, and media institutions had played various roles in seeing former President Donald Trump not just defeated, but also impeached, twice. He was written off as persona non grata after the Jan. 6 riot at the Capitol. So, academia, corporate boardrooms, Hollywood, the media, the Pentagon, professional sports teams, Silicon Valley, and Wall Street in near hysterical fashion all boarded the woke train. All boasted

of ferreting out “white rage” and hiring legions of “diversity, equity, and inclusion” czars. Critical race theory would be mainstreamed to excise racism and discrimination by embracing racism and discrimination. “Crime” was to be seen now mostly as a construct created by the elite to protect their own privilege, prerogatives, and property. Shoplifting, looting, and street thuggery were just part of living in a normal city. “Social justice warriors” could replace defunded police. Gone would be most bail, incarceration, mandatory jail time, stop-and-frisk, and broken-windows deterrent policies. Green agendas, the left hoped, would fundamentally transform America in putting an immediate stop to man-made “climate change.” So, lots of oil and gas leases were either canceled or their fees vastly increased. Pipelines were stopped. Gas and oil companies were warned that everything from lack of financing to new regulations would soon put them out of business. The golden age of wind and batteries was already upon us. Modern monetary theorists assured us that printing money would “spread the wealth” and devalue the cash of undeserving capitalists who had too much of it. Printing more cash, they believed, would implant it in the hands of the needy who unfairly had too little. To the extent inflation followed, it would be a good thing, they hoped, a sign of a newly empowered and robust consumer class long denied “equity.” COVID-19 was virtually over. We were assured by Biden that Trump had killed over 350,000 Americans with his lax health policies. In contrast, Biden would soberly vaccinate us all, claiming the vaccine’s efficacy as his own. He predicted victory over the virus by the Fourth of July. The delta variant was still then just an obscure rumor from abroad. 10 The border would be opened—and stay open. No more walls. As citizens of the world, the left welcomed in 2 million immigrants who arrived illegally without audit or vaccinations during a pandemic. As the woke drove terrified old liberal Democrats into hiding, all the old wisdom about human nature vanished. Forget that criminals hurt the poor the most... Ignore the passe idea that inflation eats away at the wages of the working class. We could always resume the quarantines, lockdowns, and shutdowns that made Amazon, Target, Walmart, and other conglomerates hundreds of billions in profit, while the mom-and-pop small businesses went broke. So, what did the people conclude 10 months out from the woke getting their wishes? The polls reveal that voters don’t like open borders at all. They disapprove of illegal immigration as much they support legal immigrants. They worry about crime and drugs. They don’t want the unvetted and unvaccinated flowing across their borders. The people want cheaper, not pricier gas. They prefer American energy self-sufficiency. Why, with cup in hand, go begging to Saudi Arabia and Russia to pump more supposedly Satanic oil? The people like the police and hate crime. Even the rich among the woke are now scared—some of whom sowed the wind of

decriminalization and are themselves reaping the whirlwind of crime. Most voters care less about our color, but far more about our character. They think a meritocracy, not quotas and tribal chauvinism, explains the exceptional American standard of life. They despise inflation as much as recession, and fear they may now get both. Freedom-loving individuals don't like cancel culture, ostracism, iconoclasm, Trotskyization, and commissars. They prefer free speech and treasure the Bill of Rights. So, in just 10 months the left got what it wanted. And the people are becoming not just sick of what has followed, but disgusted. They are terrified that the left is not just failing, but also wrecking the country and them along with it. The ages have left us adages for the people's growing anger at the hubristic and now unpopular left. We know the ancient warnings variously as, "What comes around, goes around," "You reap what you sow," "Be careful about what you wish for," and "The law of unintended consequences." Words like "nemesi" and "karma" also come to mind. But of the collapse of the woke appeal, perhaps we could say, "It couldn't happen to a nicer bunch of zealots."

[Steve Kirsch piece as if Anthony Fauci had written a secret memo instructing how to manage and counter the pushback against Covid & Vaccines - 2021 December](#)

Below are the headlines, but go to [this link](https://stevекirsch.substack.com/p/how-the-game-is-played) if you want to read his expanded explanation for each.

- NEVER allow a proper autopsy by people who are capable of making a vaccine determination.
- Never allow anyone to do an analysis on what is in the vials.

- Ensure that the drug companies have complete immunity from prosecution.
- Label anyone who opposes us as “antiscience.”
- Make sure that the vaccine injury program (the CICIP) never pays a dime to COVID vaccine victims.
- Mandate the vaccines for everyone (except Congress and the Supreme Court).
- In the event of disabilities that happen during the clinical trials, change the symptom when writing the study report for the FDA. So “permanent paralysis” is changed to “mild abdominal pain.”
- If someone dies from the vaccine during a vaccine clinical trial, simply write up in the report that the death “isn’t related to the vaccine.”
- The medical community is never going to check your work if you work at the CDC. Nobody will ever ask about the UnderReporting Factor for VAERS.
- We can always get stuff approved, even if it is harmful to health. This is because we’ve instructed everyone on the outside panels to never question our staff members.
- Sure, there will be lots of cardiac arrests and the ER docs will see all this, but they are too busy [and trained not to blame a vaccine].
- Aggressively pursue the revocation of the medical license of anyone who speaks against the [vaccine] narrative.
- Back in 1985, we carefully designed the VAERS system so that nobody will ever know [what] the true cause is, so we can argue that every vaccine is safe, no matter how unsafe they are. Ten years ago, we killed the ESPVAERS project because it was too accurate.
- Bobby Kennedy nailed us on this in his book, but his book is so long, nobody’s going to find this. (It’s on page 73)
- We use masks to monitor our level of control [over people]. Masks don’t work at all.
- We have a huge educational campaign to

fool people into thinking this is a “pandemic of the unvaccinated,” rather than a “pandemic of the people who never got early treatment.”

-We tell people “trust the science.” This always works since they deem us to be the authorities on science.

-We are paying hospitals huge bonuses for classifying deaths as COVID deaths in order to keep the fear alive.

-Make sure your physicians are NOT educated about reporting to VAERS;

-The only early treatments allowed [remdesivir, etc] are those created by our big pharma sponsors. Everything else we need to go after doctors and take away their license if they prescribe any stuff that works like ivermectin.

-We have to make Omicron look like a serious threat, even if there are only a few deaths.

-The mainstream media has been trained to never mention that the vaccine could be a cause of death, even if the person died within hours of the vaccine and they were perfectly healthy before and had no history of heart disease.

-Censor/discredit/ridicule anyone who attempts to question the narrative such as making a link between the vaccine and death or saying that masks don't work or claiming that they are vaccine injured.

3

-NEVER accept a debate with the opposition.

-Keep repeating “safe and effective.” Say it enough times they'll believe it.

-We've exempted the employees of the CDC, other agencies, and Congress from any of the [vaccine] mandates.

-Big tech will help us make sure that nobody learns the truth... We've got all the social networks to censor anyone questioning the narrative: Facebook, YouTube, Twitter,

LinkedIn, Medium, etc.

-I funded the virus, but nobody is going to put 2 and 2 together. If it wasn't for one Senator (Rand Paul), nobody would know that I funded the gain of function research in Wuhan.

-I'm the guy who caused this whole mess and what do they do? They put me in charge of cleaning it up! These people are dumber than a doornail.

-Even if we are exposed, nobody will believe it.

-Don't worry about having this memo fall into the wrong hands. If the press gets this memo, they won't publish it.

## Issues with the COVID Vaccine

I feel it a duty to raise a voice of reason against this madness wherever possible. The resistance is alive, it just doesn't get much coverage in the news.

**POLITISIZED MEDICAL ESTABLISHMENT**

Generally speaking, of course it is wise to follow researched consensus! But we live in a fallen society with corruption in academics, and we must search for ourselves on many issues.

IF ONLY conventional medicine had all the answers and cured disease instead of treating symptoms and helping to enable corrupt pharmaceutical companies that have been previously sued for billions for their crimes and bad practices.

The politicization of science is NOT science, and it ruins actual science. We need only look at how Governor Cuomo killed the elderly in New York to see this.

On one hand, current science says that the vaccinated are actually responsible for infecting others with the virus and causing a spike in the summertime through this. On the other hand, politicized science says that everyone, including pregnant mothers and children, should be included in mandates to get these rushed, experimental vaccines. Who is right?

### **UNHEALTHY PEOPLE**

Do we live the word of wisdom including the positive aspects?

No.

We are all fat, sluggish, and sick. Perhaps this is they think we need a vaccine, because we don't care about our health, and this is a last ditch effort to keep us alive.

May we be more inclined to carry out revealed scripture on how to be healthy than a statement of medical advice based on who knows what.

How's that run and not be weary working out for you? It's not. We are in a very sad state of affairs when it comes to health among the saints. Talking a shot isn't going to change that.

Now is the time to see who has been living the spirit of the word of wisdom, and who has only been following the letter.

Look at what the early brethren like Joseph Smith had to say about doctorcraft and turning to God for healing rather than to doctors.

### **INFORMED DECISIONS**

If you refuse the vax based on not caring about counsel or health in general, bad for you. If you refuse it based on informed reason & proper spiritual precedence, good for you. If you take it based on following the crowd, bad for you. If you take it because all information available to you says it's the best path, good for

you.

Are we being tested on our loyalty to the advice of leaders who suggest the vaccine? There is no such test. The only test is to see if we are thinking people who take personal responsibility for what they put into their bodies. This has been an ongoing issue in our culture of doing whatever experts tell us to.

Most are unaware of the dangers of vaccines in general, and particularly this one. They're also unaware of how minimal this sickness is to otherwise healthy people.

People should make these medical decisions privately, and not shove it down throats. I've spoken publicly on this subject on rare occasion, but typically I just keep my mouth shut when people guilt trip others on this subject.

### **VACCINE ISN'T MARK OF BEAST:**

However much I don't like the tyranny and politicized science of this vaccine, I've never called the vaccine "the mark of the beast". This issue does have to do with discerning what is right and bring informed, but I think the medical establishment cover-up which has been going on for decades now is altogether too powerful, and many who are unaware of it will not be held fully accountable.

The mark is yet based in the future. There is a trend today to say things are already fulfilled which in fact are not, such as the New Jerusalem, the 144,000, the plague, the literal gathering, The seventh seal being opened, the ten tribes returning by a miraculous bridge, the trumpets, the translated beings, Latter-Day Saints saving the Constitution (if anyone does), etc.

### **GOOD CITIZENSHIP**

Some think we are bad citizens if we do not follow the advice of government or scientific leaders on taking this vaccine. Some even worry about church leaders who advocate the vaccine. But we can see easily that these urgings from well meaning people are in the spirit of wanting us to work together, to do what research says is best. But those of us who know about the conspiracy and that the research is politicized must take another path. The spread of truth is often unpopular, and it may take time, too much time, for people to wake up. But each individual is responsible to God and God alone for following through on conscience of what they know is right.

It's not well meaning leaders' fault, its just that truth in these matters is being squashed on a large scale. Most the people pushing the "follow the advice by being vaccinated" narrative were already pro-vax establishment people. The few who aren't and are pushing it are confused on this issue.

Remember Thomas Jefferson said when tyranny becomes law, resistance becomes duty. The scope of this virus, the shutdowns for control, this is all the biggest government coverup since 9/11.

Does God offer protection to the masses who ignore him and his long-standing councils related to health and righteousness just because they came up with a supposed vaccine? Why are we looking to big pharma for deliverance? Time will expose these Gadianton's for what they really are.

### **CAN WE TRUST THE VACCINES & FALLEN HEALTH ADVICE OF OUR TIME?**

Who can honestly say they trust vaccines which remain ineffective so as to require masking up after taking them? Why encourage people who already had the sickness who now have natural immunity to get a shot? Why are vaccinated people getting the sickness? The train of logical issues goes on and on (see my website news feed for a glimpse of that), and most people just save face and go along with the establishment expert recommendations. When the SAD goes out the window, when the experts push real health, when they aren't in bed with big pharma, then I'll have more faith in their claims. Their advice has more to do with control and the forthcoming New World Order than sound health practices.

Those who look to herd immunity and other nonsense for deliverance from plagues are missing the science mark. Many are also unaware of how past mass vaccinations did little good or even harm to the populations. Polio for example was already on its way out when they started hailing the vaccine as the savior.

The best approach to health issues is that each person should be actively building immunity by following sound nutritional principles. More and more the medical community is coming to realize that. When you go to the doctor, do they ask what you've been eating in general, or just in the past few hours? Therein is the problem. So many of the "etymology unknown" can be traced to dietary stupidity/ignorance.

## **WILL IT GET WORSE?**

Are people dropping dead like flies all around us as seen in vision? No. It'll get much worse. One purpose this has served is to remind people to get healthy, and to get food storage so that when the real sickness comes, they're better prepared.

Hasn't the Lord already told us how to have the destroying angel pass by when plagues happen? Yes, it's in D&C 89.

Is this virus real? It does appear to affect some who have underlying sickness already. What do we learn from this? Get in shape. Stop eating junk food. Eat vegetables and whole foods. Exercise. Get food storage. In short, be wise about your health!

Some have passed around a meme with the serpent on the staff of Moses, labeling it as the vaccine. This is blasphemy! That serpent represents Christ Himself! When I first saw this I thought it was to make fun of people who are pushing the vax in the name of religion, but it turns out they are dead serious! If someone wants to take a vaccine, that's fine, its none of my business (by the way, the church handbook says vaccine usage is a PERSONAL decision); it is cruel to suggest that those uncomfortable with this experimental quasi-vaccine that doesn't produce immunity is less faithful to Christ than someone else. Didn't the savior say to do good works in private?

## **STAND FOR AGENCY: DON'T PERSECUTE NON-VAXERS**

You can still be against forcing people to get it whether or not you chose to get it. I certainly believe forcing this is against the Nuremberg Code and a serious violation of God given inalienable rights. The pre-mortal war was on the issue of agency, people of good conscience will not be interested in forcing others into this.

People who post things like "I'm getting the vax like because so-and-so said to" are practicing a form of unthinking persecution and will live to regret that attitude.

Why are people refusing the shot? Because there are MANY who sense something fishy is going on, and who don't want to be part of the controversial experiment. Many have first hand experience and observation with SERIOUS issue from these vaccines, and won't touch it with a ten foot pole.

## Doctor Craft – Prophetic Warnings

We use doctors in the Church and believe in using faith and medicine as Elder Nelson and Elder Oaks and Elder Holland have recently taught. This is to supplement your understanding, so you are aware that there are conspiring men in this field, and not to always trust them 100% on everything as seems to be the current trend.

Many selections here found from a larger text:

[http://ogdenkraut.com/?page\\_id=112](http://ogdenkraut.com/?page_id=112) has a larger article addressing 4 crafts (doctorcraft, lawyercraft, priestcraft, kingcraft), though here I've selected some favorite quotes on doctorcraft.

-“When God spoke from heaven to Joseph Smith, the people were bound down by priestcraft, doctorcraft, kingcraft, and lawyercraft, the four grand crafts that uphold Satan’s kingdom.”(Brigham Young Deseret News, July 12, 1863)

-“The devil has sent his emissaries among us, some of whom come in the form of lawyers, doctors and ministers, and others as saloon keepers and gamblers, and [10] as “gentlemen” whose politeness and affability are peculiarly striking. Their special mission seems to be directed to the young of both sexes, to decoy and lead them astray. (Brigham Young JD 18:233)

-“Then you may take the class called merchants, also the doctors, the priests in the various sects, the lawyers, and every person engaged in any branch of business throughout the world, and, as a general thing, they are all taught from their childhood to be more or less dishonest.” (Brigham Young JD 6:72)

-“Some of the company thought I was not a very meek Prophet; so I told them: “I am meek and lowly in heart,” and will personify Jesus for a moment, to illustrate the principle, and cried out with a loud voice, “Woe unto you, ye doctors; woe unto you, ye lawyers; woe unto you, ye scribes, Pharisees, and hypocrites!” etc. But you cannot find the place where I ever went that I found fault with their food, their [11] drink, their house, their lodgings; no, never; and this is what is meant by the meekness and lowliness of Jesus.” (Joseph Smith DHC 5:218)

-“As to the doctors who are in our midst, who are our enemies, I say let them alone, for I have no doubt but that three to one who have died in this place had a doctor. \* \* \* Do [20] cease to employ doctors, lawyers, and merchants who will empty your purses. \* \* \* As to the doctors, let them go. I can prove that a doctor in this place doctored a woman that was in the family way, and did not know it

until she was delivered, and both woman and child died, and if you will employ them, you will all die.” (Joseph Smith DHC 7:258-259)

-” All ye doctors who are fools, not well read, and do not understand the human constitution, stop your practice. And all ye lawyers who have no business, only as you hatch it up, would to God you would go to work or run away!” (Joseph Smith DHC 6:59)

-“Another thing: I want to speak about the lawyers of this city. I have good feelings towards them; nevertheless I will reprove the lawyers and doctors anyhow. Jesus did, and every prophet has; and if I am a prophet, I shall do it: at any rate, I shall do it, for I profess to be a prophet.” (Joseph Smith DHC 6:238)

-“I am happy to say I have never been under the necessity of calling a doctor to my family for forty years. I have had them in my family, but not from necessity. I like them when they are gentlemen; when they are wise and full of intelligence, I am very fond of them; but I do not ask them to doctor my family in any case; and there are no circumstances under which I think them necessary except in case of a broken bone, or where skillful mechanical or surgical aid is necessary. But to call a doctor to my family to administer physic to them, I am not under the necessity of doing it. Is this so? Yes, it is; and if the experiment could be tried, independent of the Gospel and of faith, in any community, I care not where, nor for what length [21] of time, of having any number of persons, with regularly qualified physicians to attend them; and the same number without such physicians, but who will doctor themselves according to nature and their own judgments, among that portion without doctors, there would be less sickness and fewer deaths than among those who had their doctors. The experience of the Latter-day Saints in Utah confirms this. (Brigham Young JD 13:142)

-“Would you want doctors? Yes, to set bones. We should want a good surgeon for that, or to cut off a limb. But do you want doctors? For not much of anything else, let me tell you, only the traditions of the people lead them to think so; and here is a growing evil in our midst. It will be so in a little time that not a woman in all Israel will dare to have a baby unless she can have a doctor by her. \* \* \* Now the cry is, “Send for a doctor.” If you have a pain in the head, “Send for a doctor;” if your heel aches, “I want a doctor;” “my back aches, and I want a doctor.” The study and practice of anatomy and surgery are very good; they are mechanical, and are frequently needed. Do you not think it is necessary to give medicine sometimes? Yes, but I would rather have a wife of mine that knows what medicine to give me when I am sick, than all the professional doctors in the world. (Brigham Young JD 15:225)

-“When he [Jedediah Grant] was here, the devils had power over his flesh, he warred with them and fought them, and said that they were around him by millions, and he fought them until he overcame them. So it is with you and I. You never felt a pain and ache, or felt disagreeable, or uncomfortable in your bodies and minds, but what an evil spirit was present causing it. Do you realize

that the [22] ague, the fever, the chills, the severe pain in the head, the pleurisy, or any pain in the system, from the crown of the head to the soles of the feet, is put there by the devil? You do not realize this, do you?

I say but little about this matter, because I do not want you to realize it. When you have the rheumatism, do you realize that the devil put that upon you? No, but you say, "I got wet, caught cold, and thereby got the rheumatism." The spirits that afflict us and plant disease in our bodies, pain in the system, and finally death, have control over us so far as the flesh is concerned. But when the spirit is unlocked from the body, it is free from the power of death and Satan; and when that body comes up again, it also, with the spirit, will gain the victory over death, hell, and the grave. (Brigham Young JD 4:133)

- "As an individual, I am free to acknowledge that I should much prefer to die a natural death, to being helped out of the world by the most "intelligent graduate," new or old school, that ever scientifically flourished the wand of Esculapius, or any of his followers." (Brigham Young Mill. Star 14:215)

- "The doctors in this region [Nauvoo] don't know much; and the lawyers, when I speak about them, begin to say, "We will denounce you on the stand." But they don't come up; and I take the liberty to say what I have a mind to about them. Doctors won't tell you where to go to be well; they want to kill or cure you, to get your money." (Joseph Smith DHC 5:357)

- "I want to say to all who profess to be saints, do not harbor blacklegs, counterfeiters and bogus-makers, wipe them away; it is time to carry out the design of our Prophet; do [24] cease to employ doctors, lawyers, and merchants who will empty your purses and then mob you." (Brigham Young DHC 7:259)

- "But the great majority of men who have amassed great wealth have done it at the expense of their fellows, on the principle that the doctors, the lawyers and the merchants acquire theirs. Such men are impositions on the community, and they ought to be taken and put to some honorable labor such as raising potatoes, raising grain, cattle and sheep, and performing other useful and necessary labors for the good of mankind. Amen." (Brigham Young JD 19:98)

- "Doctors and their medicines I regard as a deadly bane to any community. Give your children, when sick, a little simple herb drink; and if they have eaten too much, let them go without food until their stomachs are cleansed and purified, and have faith in the name of Jesus and in the ordinances of his Church, and they will live. That is my faith with regard to this thing. I am not very partial to doctors and lawyers. I can see no use for them unless it is to raise grain or go to mechanical work." (Brigham Young JD 14:108)

- "I can see the faces of this congregation, but I do not see two alike; and if I could look into your nervous systems and behold the operations of disease, from the crowns of your heads to the soles of your feet, I should behold the same difference that I see in your physiognomy-there would be no two precisely alike. Doctors make experiments, and if they find a medicine that will have the desired effect on one person, they set it down that it is good for everybody, but it is not

so, for upon the second person that medicine is administered to, seemingly with the same disease, it might produce death. If you do not know this, you have not had the experience that I have.” (Brigham Young JD 15:226-227)

-“Who is the real doctor? That man who knows by the spirit of revelation what ails an individual and by the same spirit knows what medicine to administer. That is the real doctor, the others are quacks.” (Brigham Young, JD 15:226)

-“save the sick like a good physician, and not kill them by dosing down the medicine as do some of our doctors.” (Brigham Young, JD 9:125, 17 Feb. 1861)

-“You may go to some people here, and ask what ails them, and they answer, “I don’t know, but we feel a dreadful distress in the stomach and in the back; we feel all out of order, and we wish you to lay hands upon us.” “Have you used any remedies?” “No. We wish the Elders to lay hands upon us, and we have faith that we shall be healed.” That is very inconsistent according to my faith. If we are sick, and ask the Lord to heal us, and to do all for us that is necessary to be done, according to my understanding of the Gospel of salvation, I might as well ask the Lord to cause my wheat and corn to grow, without my plowing the ground and casting in the seed. It appears consistent to me to apply every remedy that comes within the range of my knowledge, and to ask my Father in heaven, in the name of Jesus Christ, to sanctify that application to the healing of my body” 21

-“If the people want to eat calomel,” he said, “let them do it and be damned. But don’t feed it to any of my family. If any doctor does and I know it I would kill him as quick as I would for feeding arsenic.” (Notes of Brigham Young’s medical lecture to the Board of Health in Great Salt Lake City, December 1851, Wilford Woodruff’s journal.)

-“I will give \$5000 dollars,” he said, “for the 16 part of an oz of poison that can be extracted out of all the lobelia in this valley.” (Brigham Young, Sermon, 16 June 1861, typescript, Church Archives, p.3)

-“But there is constitutions, and situations in life, wherein you may administer calomel to persons, and it will do them good when nothing else will. But is it good in every case? No. Not one in fifty thousand, but we will reduce that and say one to five thousand. It will produce death in five thousand where it will do good only to one person.” (Brigham Young, Sermon, 16 June 1861 p.3)

-Speaking of physicians “A worse set of ignoramuses do not walk the earth.” (Notes of Brigham Young’s medical lecture to the Board of Health in Great Salt Lake City, December 1851, Wilford Woodruff’s journal.)

-“I suppose there are physicians here laughing in their sleeves and thinking what a pity it is that brother Brigham was not a studied physician. A studied fool you mean—a learned fool. When you come to the real knowledge I know more than ye all and do not brag one particle. I could put all the real knowledge they possess in nut shell and put it in my vest pocket, and then I would have to hunt for it to find it.” (Brigham Young Sermon, Bowery, 16 Jan. 1861, pp. 7-8)

-If the Saints were to fully cultivate the gift of healing, “every doctor might be removed from our midst.” (Brigham Young JD 14:108, 8 Aug. 1869)

-“at Salt Lake they had no sickness till the doctors came. Then they, being too lazy to delve and hoe like others, made people ill, in order to get a living by doctoring them!” (Brigham Young; Harper’s Weekly, v. 13, 2 Oct. 1869)

-The doctors in this region don’t know much . . . and I take the liberty to say what I have a mind to about them. They won’t tell you where to go to be well; they want to kill or cure you to get your money. Calomel doctors will give you calomel to cure a sliver in your big toe, and they do not stop to know whether the stomach is empty or not; and calomel on an empty stomach will kill a patient. . . .” (Joseph Smith; Journal History, 13 April 1843)

-““People will seldom die of disease,” he explained, “provided we know it seasonably, and treat it mildly, patiently and perseveringly, and do not use harsh means.” ( Joseph Smith; Journal History, 19 April 1843)

-Speaking of the selfishness of one local doctor, Brigham Young said, “did not have quite sympathy enough to buy them a chicken or give them a shilling, though he was worth some four or five hundred thousand dollars.” (Watson, p. 53)

-George W. Hickman a doctor was told by Brigham Young “not to practice medicine because he [Young] wanted to teach the people faith and dependence upon God. . . . This was a stunning blow to a young man who had spent years in preparation for a profession suddenly to have his staff knocked from under him.” (From the journal of Josephine Hickman Finlayson, his daughter, in “Pioneer Medicines,” Heart Throbs of the West, 12 vols. (SLC; Daughter of the Utah Pioneers, 1939-1950, 7:210-11)

-“As to supporting a family by medical practice, we have physicians who find considerable employment, yet it is no uncommon thing to see them at work in the canyons getting out wood, plowing, sowing, or harvesting their crops, which, I think betokens a healthy state.” Brigham Young

-We want sister physicians that can officiate in any capacity that the gentlemen are called upon to officiate and unless they educate them- selves the gentlemen that are flocking in our midst will do it.” ( Eliza R Snow SLC (General or Cooperative) Retrenchment Association minutes, 1871-75, 13 Sept. 1873, LDS Church Archives)

-“Learn to take proper care of your children. If any of them are sick the cry now, instead of “Go and fetch the Elders to lay hands on my child!” is, “Run for a doctor.” Why do you not live so as to rebuke disease? It is your privilege to do so without sending for the Elders. You should go to work to study and see what you can do for the recovery of your children.” (Brigham Young JD 13:155, 14 Nov. 1869)

-“know their own systems, understand the diseases of their country, understand medicine and they ought to know enough to treat themselves and their

neighbors in that way that they will live as long as it is possible for them to live.” (Brigham Young; Sermon, Bowery, 16 Jan. 1861, pp.3-4)

## The Science and Skepticism Behind the Vaccine War - Documentary Highlights

by PBS & Frontline Journalism

- small pox, polio, diphtheria, etc. are gone from vaccines
- many parents don't want autism risks from vaccines, they would rather have measles.
- within 6 years a child gets 36 inoculations
- they prevent 16 diseases by vaccines
- Hep B vaccine is an STD, and some say they don't want such in a baby
- babies today get 4x the vaccines than in the 70's
- there are reasons we get sick, getting sick is not a bad thing.
- some children don't want to get sick from those without the vaccines
- National Vaccine Information Center is a current establishment
- Generation Rescue is a group by JB Handley currently on tens of thousands of cases of MMR triple shot and others becoming disabled, in ways like not looking at their parents after such, or never speaking again after such, etc.
- autism is a brain damage disease, we give more vaccines today, and this illness is increasing, the correlation is drawn.
- some say that children who get vaccines then autism is merely because that is the age autism generally develops
- mercury, ether, aluminum, formaldehyde, phosphate buffers, formalin, yeast protein, soy protein, bovine protein, thimerosal (mercury based), these are some of the ingredients of the vaccines.
- Robert Kennedy Jr. is one loud speaker against these.
- mercury is known to be a neurotoxicant, but not related to autism necessarily
- many studies in several nations show no link between MMR and autism
- thimerosal has mercury studies show no link with it and autism
- yet many cases show children go in to get vaccines, and leave regressing.
- some say 100,000's of thousands are negatively affected from vaccines

-some say that the internet causes myths to not die which should die, others say the internet is showing more truth and allowing people to challenge the medical establishment.

-some say vaccines are private not public; that it's like not taking a drug; but they there is the question of herd immunity. It's said that the large drop in herd immunity is where the real issues come out.

-scientists say herd immunity matters like a wall around a community

-they say they still vaccinate against polio because some people with it are still alive. However they stopped giving smallpox vaccines because that is totally gone.

-some say people are taking control of their own health and don't want to rely on a doctor. Physicians must get over the idea that they aren't going to be obeyed all the time.

## Vaccines by Jack Stockwell – Lecture Highlights

From a lecture at [latterdayconservative.com](http://latterdayconservative.com). These notes are shared with permission of Brian Mecham of [Latterdayconservative.com](http://Latterdayconservative.com). See other LDC lectures in the government writings.

-we need calcium in its raw form not in milk, but in plants or from something that ate a plant.

-health food stores have nothing to offer, they make you be vitamin deficient

-he never gave his sons a vaccine, never a shot in his life, for 17 years he remembers only 3 days when he was sick. He is also quite all, taller than his dad, and a basketball player.

-this man is 65 but doesn't look it

-the FDA buys out the things that work in the health food stores because they don't want you to be exempt from needing to take their drugs.

-vitamin f isn't in health food stores because it works; it's only to be found in a Dr.'s office

-vaccines do the opposite of what needs to happen with our bodies

-there is no long-term research proving that vaccines work

-many of those Dr's who push the vaccines have stock invested in them, owning patents on them.

-get raw whole milk; it's sold at a place called Real Foods in Orem, St. George, and a few other places.

-eat fatty deep-sea fish

- email him at jackstockwell.com
- free audio from Jack at <http://www.jackstockwell.com/download-free-health-mp3-s/>
- mercury is in the vaccines very bad
- acid issues are from not having enough acid
- babies don't develop anti-bodies until 12 months old (hence they don't need vaccinations). An epidemiologist said they get moms to bring in babies to train them to bring them in for vaccines.
- they won't do long term studies on vaccines for they have so much money invested in them.
- vaccines is a way they want to help the "overpopulation problem" in the world Bill Gates says.
- you must take thyroxin if you have no thyroid
- anti oxidants are an utter and total scam (not sure what he means by this)

## VAXXED: Documentary Notes

- Showcases families whose children develop autism directly after taking vaccines.
- Autism was rare, spiked with vaccines

-They say no link between autism and vaccines, but parents have the same story over and over: that directly after the vaccine, a fever, then loss of speech, and other symptoms of autism which are permanent.

-Dr.'s used to be told to listen to patients, now they just call the patient crazy.

-Changing name of unsafe vaccines and re-marketing them.

-Meningitis from vaccination

-the younger you get the MMR vaccine, the greater the risk for autism.

-Wakefield

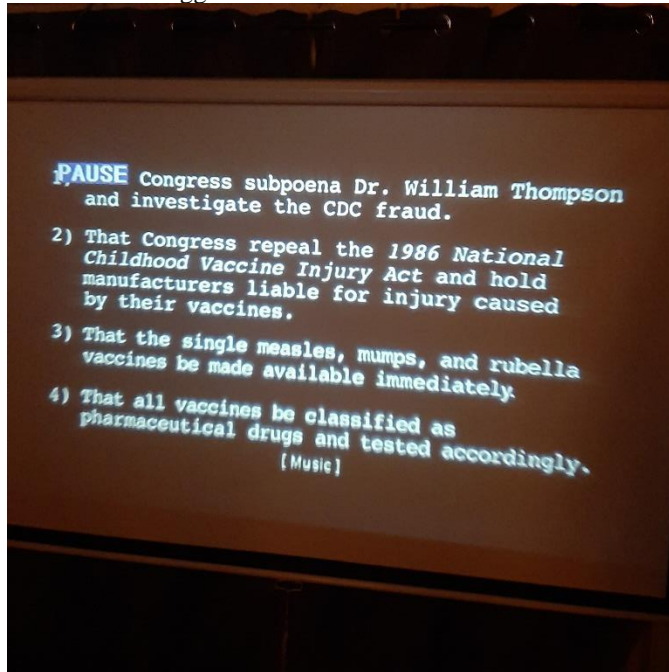

-deliberate modifying of records age groups

-taxpayers, not pharmaceutical companies, pay the damages

-if rates continue as they are now, 80% of boys will have autism by 2032

## Our Persistence Intolerance of Naturopathic Medicine

We have a recent case in the US of the DCFS taking kids from parents who didn't think chemotherapy and radiation was the best option. At first glance we might say "yes the state protected the children from death." But this is upsetting as it ignores alternate treatments which the very knowledgeable naturopathic parents were going to perform. Medical schools used to allow herbal and naturopathic studies. The Flexner report in the 20<sup>th</sup> century claimed that homeopathic schools were promoting dangerous graduates who did not understand medicine. This led to 25 large schools of natural medicine being shut down and lawsuits against many natural health practitioners. The Fitzgerald report in the appendix to the congressional record written by the chief investigator to interstate commerce showed that money from pharmaceutical companies was being put into shutting down natural clinics, hospitals, and laboratories which didn't conform to standard pharmacology practices of the time. Pharmaceutical companies are known for trying to silence herbal remedy inventors like Harry Hoxsey. The American Medical Association lost a case called Wilk VS AMA in 1990 for having been identified as financing propaganda to shut down competitors in the naturopathic field.

## Dangers of Anti-Depressant Drugs by Anne Tracy – Lecture Highlights

These notes are shared with the permission of the author.

Tracy is the International Drug Awareness President

Tracy raises awareness about potentially harmful effects of SSRI anti-depression medications.

Tracy has documented over 5,000 cases of violent crimes related to SSRI drug usage.

She has training on how to come off of SSRI's, but admonishes this to be done very very slowly!

She wrote "Prozac: Panacea or Pandora? – Our Serotonin Nightmare" 2014, which sells for \$12.50 on her website by [clicking here](#) or at this link:

<https://store.drugawareness.org/>

Listen to her on her radio show via her website.

Another place to listen to her is the downloads section of [latterdayconservative.com](http://latterdayconservative.com)

She has a CD on SSRI's effects on spirituality, bi-polar disorder, REM sleep disorder, & false memory syndrome.

I've emailed back and forth with her on a few topics, she is very helpful.

She suggests the book "Are There Any Sick Among You?" by LaDean Griffin.

She has used a vegan diet to overcome cancer.

These are notes from Ann Tracy – Dangers of Antidepressants Anne is a Latter-day Saint who teaches about the perils of using Antidepressants. This lecture was found at [latterdayconservative.com](http://latterdayconservative.com)

-It's in water, so much that male fish are being born with ovaries. Fluoride.

-Get distilled water or purified water, but we don't know if even those will get all the drugs out of the water.

-\*I see that many of our gender issues are from the effects of the drugs that we use in our society so much now! And these births with gender abnormalities!

-Why does Utah have the biggest problem with these drugs? It's because they target Utah. Utah is the only state left in the country which still has strong family values and strong moral values, and that gets in the way of the plans of the drug companies. So they target Utah! A catholic fellow pointed this out.

-Monsanto and the drug companies are together in their planning, very closely related. Monsanto can create GMO's (genetically modified organisms) for our food which can take away the nutrition and make us need to take more medication.

-Since 2007 we have lost more military personnel to suicides than we have to combat.

-Anne Tracy teaches people these things 14-16 hours a day for 25 years; so long as these drugs are on the market she is fighting to let people know these things.

-Mind altering drug means you lose your agency you can't control yourself any more

-Zombie talk is because of what is happening with these drugs, the shooters of homicides have a blank stare in their face, the lights are on, but no-one is home.

-70% of the physicians who prescribe these are on them.

-Prozac: Panacea or Pandora? the Rest of the Story on the New Class of SSRI Antidepressants Prozac, Zoloft, Paxil, Lovan, Luvox & More. Paperback – June 1994 by Anne Blake Tracy is the bible about this topic (she is a PhD, head of the International Coalition for Drug Awareness) (the book is less than 1\$ to buy used on Amazon.com, can do so at [http://www.amazon.com/Prozac-Panacea-Pandora-Antidepressants-Zoloft/dp/0916095592/ref=sr\\_1\\_fkmr0\\_1?ie=UTF8&qid=1422148274&sr=8-1-fkmr0&keywords=blake+tracy+prozac+nightmare](http://www.amazon.com/Prozac-Panacea-Pandora-Antidepressants-Zoloft/dp/0916095592/ref=sr_1_fkmr0_1?ie=UTF8&qid=1422148274&sr=8-1-fkmr0&keywords=blake+tracy+prozac+nightmare)) and puts out more research than the other books. Anne Tracy suggests this book over any other. Prozac Pentaci or Pandora is the old version of the book. It's the best documented text Anne Tracy has found in years of reading on nutrition, and she recommends it to all her clients.

-You are more likely to have autistic children if you take Prozac or other antidepressants within 12 months before you give birth. There will be 3 to 4 times the chance of autistic birth. Utah's rate is 3-4 times the rate of other places.

-These can cause ADD

-One man after being on antidepressants for 5 days killed his family and himself; before he was known as the nicest guy in the community

-Have a puppy instead of pills for anti-depression

-Oprah Winfrey had a show promoting Prozac and had the Prozac Dr. most famous for dispensing such on her show.

-Utah since it has the more issues with this is the place where there are the most children born with autism.

-This causes schizophrenia, bipolar, Alzheimer's, ADD, autism, etc.

-In the military they encourage antidepressants much

-To children in foster care they get loaded with antidepressants because there is no regulating it

-You have to come off the drug slowly or it can be terrible

-These pills are what make a person psychotic, and that gets them to rely on the drug company

-They are now planning to have mental health treatments from your own home, people want Dr.'s or other people who can prescribe drugs to come in their home; they then stay at their home and are more likely to kill their family and neighbors like thousands of reported cases we have already seen.

-The physicians on this can't remember things so they joke about like they're just growing old and remind each other about what their patients need

-This effects memory TERRIBLY

-One military veteran began antidepressants after military combat and began using these drugs for his knee later and it's then that he began how to kill his squad leaders.

-one lady beat her 17-year-old son to death with a mallet and then tried to commit suicide today she is locked up and doesn't know why she did those things, it was these drugs.

-Drugawareness.org has recorded cases of killings from these drugs.

-ssristories.net is associated with drugawareness.org and has thousands of records of what drugs people were on when they went out killing people and so forth.

-Within 7 years Utah went from lowest in the nation divorces to now being over the national average.

-many who take these meds are lucky in only having physical side effects like losing their liver

-after the world trade center terrorist some companies gave out these drugs for free.

-drug companies targeted general doctors who get the pill out to the general public; the dose of Prozac given to Dr.'s to give to their patients they moved the dose up from 5mg to 20mg so the effect of the boost in mood would be seen obviously so that the doctors would really promote this; but we all know that what goes up must come down.

-one mother complained about this about how Prozac is good, she had been on it for 4 years, she said it saved her life, this lady was a returned missionary married in the temple after 8 years they had a child they had long hoped for but then this lady confessed she has begun shoplifting involving her 10-year-old child in it and says she doesn't want her child anymore. So people on this drug who appear to be doing well, dig deeper and you'll see they aren't doing well. She was so addicted to shoplifting she tried to put her shopping cart into the car. People who have been on this drug for 4 years have issues develop in their lives. For a while you can appear to do well with Prozac, but it begins to break down your ability to metabolize.

-this drug can make those who are good metabolizers become poor metabolizers from taking the drug

-patients taking these drugs have thoughts they don't want to tell anyone about.

-Relief Society Presidents on these drugs become gay and leave the church.

-one experiment had rats the most mean you have ever seen, the issue was that they were not metabolizing the serotonin effectively, and their brain was being flooded with it.

-people think that the issue is a deficiency of serotonin, but it's a metabolism issue in reality.

-things with methamphetamine those are meth they hurt out bodies in the very same way

-ppl on these drugs their body is affected similarly to the way that they would be effected by PCP.

-there is a CD by Anne Traci that tells how to get off of these drugs.

-so many in the world are suicidal because of hypoglycemia

-the brain cannot function without proper blood sugar levels, that is the reason why some can't perform as well as others in school etc.

-it was 5 lb. of sugar in the 1800's we used, but now 180 lb. of sugar we use. Anne doesn't use any of this bad type sugar. (\*teaching that the type of sugar we eat that is not good for us we use much more these days)

-wheatgrass juice and turmeric neutralize fluoride and fluoride is a main active ingredient of these drugs.

-she has CD's on coming off of these drugs, mind control, bipolar, rem sleep behavior disorder, and how these drugs effect you personally

-rem sleep disorder behavior is the scientific name of what happens when people are like zombies where the lights are on and no one is home

-the brainwaves of the people who are on these drugs are like these are that of rem disorder behavior; they talk to others and their brain is asleep. A 30-year-old man who had been on Prozac for 6 months, when he was speaking to those who were doing the test on him, it was shown that he was in a complete anesthetic state while they were talking to him. The lights are on but no one home. I looked into his eyes, but no one was there. Rem sleep disorder this is,

it's where you act out your nightmares. 96% of who have the Rem sleep disorder are taking antidepressants. Many interviewed say that they do the thing they would least expect they would do when they are on this drug.

-the hosts of 1/3 of people that followed Satan in pre-mortality want to possess the bodies of the children of Adam and Eve, this is a huge way they do it.

-strengthen ourselves temporally so that we can stay secure spiritually

-the devils tell us lies to break us down and gradually get us to follow them by trying to break down our families.

-we lived all the laws of God in a spiritual body, now we are sent to earth to see if we can keep God's laws in a physical body; so we must align our bodies with the things of God.

-over and over people say that they feel possessed on these drugs even atheists.

-the pineal gland is mainly responsible for metabolizing 50% of the serotonin in your system. If you overload your brain with serotonin, you overload that part of the system. This part of the brain is related to spirituality. When they take these drugs they say that can't feel God anymore. **They literally sever the connection to the spiritual!**

-do we rely on the arm of flesh, our local doctor, more than our Savior?

-when doing talk shows on television 2 years after medications were allowed to advertise on television, Anne Tracy was to speak, and they told her that she could say anti-depressants[U1] but not the name of the drugs specifically. Image now what would happen- they control what you see on TV.

-most of the commercials on TV are to sell drugs.

-psychiatric nurses never get to hear about the real side effects of these medications, but people including physicians can testify that these side effects are true.

-these drugs cause cravings for alcohol because they help with the hypoglycemia

-many people diagnosed with Alzheimer's don't have that, what they have is a prescription for an anti-depressant.

-Anne Tracy leaves her text in the original way it was published dispute adding things to it because it's to show that dispute what she is finding now, they had much of the truth even then.

-autism and Alzheimer's have long been known as a condition from elevated serotonin levels, and what anti-depressant drugs do is increase those levels. They say that people have low serotonin when they have depression, but that is not the case; what they have is poor metabolism to turn that serotonin into melatonin to help your body sleep and do those things your body needs.

-most of the people with these drugs have issues sleeping.

-these drugs work by going in and preventing/inhibiting (such is a serotonin re-uptake inhibitor is); you inhibit the metabolism of serotonin, and you end up with increased levels of it.

-before these drugs hit the market

-the dr. in Israel who found this called this serotonin irritation syndrome who could not metabolize well their serotonin; these people suffered from migraines, hot flashes, irritability, pain, worsening of bronchial complaints, sleeplessness, pains around the heart, difficulty breathing, irrational tension and anxiety, horrifying nightmares. These are the symptoms that people on these drugs have.

-PTSD is not necessarily from war, but from these type drugs that they encourage the military personnel to take.

-coming off of the drugs quickly can cause you to turn to alcohol for hypoglycemia and get strange delusions like that your neighbor has sexually abused your children, and you plot to kill them then kill them and others.

-A Texas mother Andrea Yates who loved her 5 children, raised them at homeschool to be with them more, etc., changed significantly the dose of her anti-depressant drugs and they next day drown her 5 children. She had a medication change in her Effexor and her Remeron the day before the incident. This literally was her worst nightmare, she could have thought of nothing worse than losing her children.

-patients on these meds testify that with the first pill you lose your control, your agency.

-since Andrea Yates there have been many like cases of mothers driving their children into rivers and lakes etc.

-author speaks of more cases like the above.

-A kind Dr. when he got on Prozac he killed his wife and himself.

-A guard at a prison called Anne and said I believe that Prozac is the reason why I have a plan to kill everyone on death row. This man was a patient of the once kind Dr. who was on this Prozac and hence we know that this Dr. was on Prozac. This prison guard assured Anne that this was not in the nature of this Dr.

-you act out your worst nightmare when you are on these drugs like the Texas mother who drown the children that she loved so much.

-monthly we lose 660 to suicide in our military, and another 1600 a month on top of that are trying to take their lives in the military alone.

-they make soldiers take an antidepressant before they do to Iraq. A person can refuse such though. This is terrible; they carry guns and face life threatening situations and need to be able to think.

-Trazadone is the drug of this type they give to the military personnel.

-homicidal delusions are a listed side effect of these drugs.

-suicide hostility or psychosis can result from going abruptly up or down on the dose of these drugs, so you can't do that!

-the Dr. of Omar Bin-laden son of Osama diagnosed

-mental retardation, organic brain disease which is brain damage, substance abuse, insomnia, violent nightmares, arson, impulsive behavior with no concern for punishment, reckless driving, those are all symptoms of those drugs.

-many Dr.'s spoke out when these drugs were introduced asking why we would want to increase serotonin because LSD and PCP are drugs which mimic the effects of increased melatonin. The brain reads LSD or PCP as a rush of serotonin.

-these drugs inhibiting the ability to metabolize serotonin make you gradually over time become psychotic, then it looks like it's you and not THE DRUG. This is the big serotonin lie. They are causing the psychosis etc.

-1996-2004 the time when these drugs were really getting out there like when in 1993 Oprah Winfrey did her show on promoting these drugs and all of the mothers were running into the Dr.'s saying my kid needs this drug, as soon as this happened, and these drugs rushed out to everyone, BIPOLAR INCREASED BY 4,000%.

-Dr. Jim Goodwin 'the pied piper of Prozac' was on Oprah's show.

-1994 is when Anne Tracy's book hit the market.

-Jim Goodwin is on Prozac, he has all his 800 patients on Prozac or Paxil. Anne told him that if he doesn't get his children off of these there will be false accusations all over town for many of the nightmares that come from these drugs are sexual and you begin to think that you are remembering being raped.

-Wenatchee Washington where Dr. Goodwin did his dishing out of Prozac, had the largest sex sting ever heard of. 43 people were imprisoned wrongfully. Washington state paid out 100 million dollars for that. It was from a foster child little girl on Prozac and switched to Paxil, started saying that in many places they had orgies. The primary President and her husband went to prison for two years from being falsely accused in this incident. One child escaped from DCFS and did a show with 42 Hours interview on what had happened.

-Ritalin chemical name is methylphenidate - it's meth. Parents can't figure out that it's an amphetamine, and is no different than meth. Concerta is Ritalin in time release. (\*This is what ADD patients take?)

-One pharmacist speaks of how Ritalin turns kids into drug addicts, gets them on meth in no time. Why do we think we have a problem with meth now? We have had kids on Ritalin for many years.

-Anne has done research on the school shootings etc. at <http://www.ssstories.net>, there is an entire database about reported cases of the effects of these drugs. There are almost 5,000 cases of these issues documented on this her website. Also in her book it speaks of these.

-mutant mice genetically engineered an experiment with such went wrong and they turned to be the most violent creatures ever. They found they lack the MAO enzyme, that which metabolizes serotonin. Hence their brains were flushed with such, and these Dr.'s testified plainly that the reason for the behavior of these rats was this flood of serotonin.

-Dr's said that they doubled their prescribing of these drugs after 911 terror event. Visor (or another company) came and offered Zoloft for free after 911.

-LA Times reporter had an article printed in the Seattle Times where the reporter interviews the Taliban psychiatrist, as he walked into the man's office, there were the regular posters for all of the anti-depressants on the wall. There was a young girl in his office. She said Dr. will we sacrifice another goat, so I can feel better? He said, "Nay nay, Allah has given these drugs great power, taking them is swallowing a little piece of God." SO they call these drugs a new sacrament! You can imagine how such a Dr. would dish these drugs out! He had a commander in the army on the drugs who kept putting himself on the front line to get himself killed.

-one girl was documented to have had her father molest her, after they got her on one of these drugs, she began to believe that her mother molested her as well. She taught this to her children. **THESE DRUGS HAVE DESTROYED MORE FAMILIES THAN THEY HAVE CREATED SUICIDES.**

-hypoglycemia is the beginning stages of pancreatic breakdown. Med books say it causes marked weakness and disability, impaired memory, hyperactivity, inability to concentrate (ADD?), hopelessness, anxiety, exhaustion, depression, insomnia, irritability, vertigo, tremor, tachycardia, muscle pain and backache, phobias, difficulty concentrating, numbness, blurred vision, antisocial, obesity, abdominal spasms, blackouts, convulsions, suicidal tendencies.

-gestational hypoglycemia is what women get as they have a birth. They also go into hyperglycemia at times in this time which is diabetes. The body needs much nutrition at this time and such will reduce the depression and anxiety. So these women and it's the same with puberty time, need nutrition and then they won't get anywhere near the so-called depression and anxiety for the body is being taken care of. We ignore nutrition!

-The word of Wisdom says what not to eat, but nobody listens to what it says to do, that is to get the nutrition you need, get the body what it needs.

-those coming off of these meds who do the best are the ones who go on a raw food vegan diet.

-Anne Tracy is a 40-year cancer survivor. She said she couldn't afford a coffin, so she had to go vegan.

-Hollywood stars either are health nuts to keep up with the trend of health, or they are doing drugs to force the body to keep up with that pace. It's that simple.

-93% of pharmaceutical companies go into livestock. They don't want us to stop eating meat because then they lose their business.

-we didn't hear about road rage, air rage, school shootings with entire families being wiped out. 30 years ago you didn't hear this on the news, it was boring news, not now.

-the state picks people up and put them in a hospital where they drug them and keep them residually in.

-if they would tell alcoholics that they are hypoglycemic and to change their diets they would be over the alcohol in no time.

-the pancreas is the first thing to be hit by stress of any form. The first physical reaction to stress then that we have a low blood sugar.

-if there is ever a time in the world that we need to care for our neighbor it's now, because their nightmare could be your nightmare next.

-Coast to Coast was the biggest radio station in the country, Anne had much air time with them, in 2001 they got bought out, we haven't heard info in these drugs since.

-People on these drugs won't admit that it's a problem; it's like asking an alcoholic if he is drunk.

-never get the drug 5 HTP St. Johns, it works the same way as these anti-depression drugs.

-low blood sugar causes depression, which can even cause suicide. So how do we treat this? With nutrition!

-so many people in the world are suicidal because they have improper blood sugar levels.

-child sex abuse with teachers going manic on these drugs and seducing their students occurs.

-people on these can be obsessed with sex, be pyromaniacs, kleptomaniacs, etc.

-Demerol is another one of these drugs, some ppl even take them for blinding migraines.

-Below are over 5,000 cases of terrible behavior from anti-depressant meds from Anne Tracy's website <http://www.ssristories.net>:

## [Spirituality and Sorcery: Full Text by Ann Tracy](#)

Full text article is shared with permission of the author.

Executive Director,  
International Coalition for Drug Awareness

As John received revelation upon revelation sitting exiled upon the Isle of Patmos he issued a very strong warning to us in our day. He told us that our entire world would be deceived (lied to) through the sorceries that would come out of Babylon. (Rev. 18:23-24) He went on to say that the end result of this deception would be the demise of Prophets, Saints and many good men. In other words no one would be spared in this great deception by these sorceries.

Remember that we were told that even the very elect would be deceived.

So what is this sorcery of which John warns?

The Greek translation of sorcery is "Pharmakia" which means "medicine from a pharmacy." WHAT?! Does that mean the drugs we find in those pharmacies on nearly every street corner now? Is it talking about those same drugs with ads that run all day long on our TVs and in magazines that we see everywhere we look?! Is it any wonder then that these prescription drugs are now being reported as the biggest drug problem in America today? Is it any wonder that the whole world has been deceived about these drugs?

According to a 1995 study done by concerned pharmacists, prescription drugs, taken "as prescribed" rather than abused, are the third leading cause of death in

this country, killing as many Americans every week as we lost at 9/11. The death toll of another 9/11 every week in this country! In light of this we need to ask who the real terrorists are when we are in a war over one week's worth of these deaths while all the others go unnoticed, slaughtered and buried right under our noses. Is it any wonder the scriptures speak so sternly of sorcerers and sorcery?

January 17 this year [2008] we read in the New England Journal of Medicine that almost half of the studies done on one of America's most popular group of drugs, antidepressants, were negative, yet when any of those negative studies were reported to the public the results were presented as positive. They also said the studies indicated that there was little evidence these drugs which bring in nearly \$200 Million per day were more effective than placebo in treating depression.

Deception?

Deadly deception!

How deadly?

The most popular of these antidepressants, Effexor, now has "homicidal ideation" listed as a side effect. Homicidal ideation is not just killing someone, but it is having constant ruminating thoughts of killing and how to kill. To see the results of just this one deception with antidepressants go to [www.ssristories.drugawareness.org](http://www.ssristories.drugawareness.org) or [www.ssristories.NET](http://www.ssristories.NET) where you will find a very long list of school shootings, loving mothers and fathers who have killed their children, children who have killed their parents, suicides, murder/suicides, female school teachers who have seduced male students, even well respected ministers who have raped children, previously "straight" individuals who have become "gay" – even to the point of having sex change surgery, extreme out of character behavior, including violence, wild spending sprees, embezzlement, sexual promiscuity, exhibitionism, gambling, etc. – all side effects of antidepressants.

Then the FDA announced that they have been investigating many various types of medications for the potential of causing suicide. After learning that antidepressants increase suicidal potential by 2-3 times suddenly the FDA officials realized that multiple classes of medicines might cause dangerous psychiatric problems including suicide. Medicines to treat acne, hypertension, seizures, high cholesterol, swelling, heartburn, pain, bacterial infections and insomnia can all cause psychiatric problems, effects that were discovered in most cases after the drugs were approved and already used in millions of patients.

Now, how could these medications produce such things? With antidepressants that answer can be as simple as explaining that antidepressants create a sleep disorder in which the patient acts out nightmares. It is called a REM Sleep Behavior Disorder (RBD) and 86% of those being diagnosed with the disorder are taking antidepressants. RBD is known to produce both murder and suicide.

Acting out one's worst nightmare – what a perfect way to produce out-of-character behavior that could destroy all a person has worked to achieve in character building throughout life-all gone in the blink of the eye!

Even worse than understanding the potential of these drugs to produce RBD, is to know that in the past RBD was known mainly as a drug withdrawal state. So the question of great concern at this point should be: “If antidepressants are being found to be in current use in 86% of the cases just how high will that percentage go in the withdrawal state from these drugs?!” This is why is it so important to avoid the worst of withdrawal by weaning EXTREMELY SLOWLY down off an antidepressant.

As people begin to see how they have been lied to about the safety and effectiveness of these drugs and attempt to come off the drugs, what will the end result be? Knowing what I know about these drugs and the withdrawal from these drugs I can tell you that I for one DO NOT want to witness what we will see! If there has ever been a situation in the history of this world where we have so desperately needed to adhere to the command to be our “brother's keeper” this is it! In doing so, even if you are not the one taking the drug, the life you save may be your own or that of a loved one. Why? Because when someone goes psychotic in the withdrawal they can do anything to anyone and I just might be you or your loved one. (For information on safe withdrawal go to <http://www.drugawareness.org> to find the CD “Help! I Can't Get Off My Antidepressant!”)

Kim Crespi near Charlotte, NC learned of antidepressant withdrawal all too painfully on January 20, 2006 when her husband David, a good strong Christian and wonderful husband and father, who was also a vice president of the local bank and well respected in the community, stabbed their twin four year old daughters to death. David was months into an abrupt withdrawal from Paxil and had just started taking Prozac. He and Kim were not aware that the FDA had just warned the year before that any abrupt change in dose of an antidepressant, whether going up or down (he had just done both), can produce suicide, hostility, or psychosis – generally a manic psychosis leading to a diagnosis of Bipolar Disorder. Of course it is not true Bipolar, but a drug withdrawal effect, yet so many have found they would be medicated for years for something the Bipolar Disorder they don't really have. Is it any wonder that the diagnosis of Bipolar has increased by 4000% over a recent 10 year period when it was basically unheard of before SSRI antidepressants?

But why is all this happening to us? Where did we go wrong?

For the answer we need to turn to Isaiah 28:8 where, he, speaking of our day, says that we will rise up each day to get drunk (but he had already made it clear that this drunkenness would not be from wine or strong drink). What would produce that drunken state then? Well when do people generally take their medications? First thing in the morning? These are mind altering medications.

And what do the package inserts list as side effects? That is right – all the same effects one could expect from alcohol, but much stronger.

Isaiah then goes on to tell us why people would suffer the feelings of needing drugs. He says that our tables are “full of vomit” and there is nothing clean there.

Well, what is vomit? Vomit is food that either has already had the nutrients extracted or food that cannot be used by the body and is expelled because of that. And unclean? Look at the chemicals that have saturated our food supply. So if our tables are full of vomit – food that has been depleted of nutrients or food that cannot be utilized where does that leave us? We are nutrient depleted. And where does nutrient depletion lead us? It leads us to stimulants of any kind in order to force our bodies and brains to perform since they do not have the fuel or building blocks from nutrients to perform.

Perhaps the most obvious segment of society in which to see this is that which is most transparent due to the exposure they get – Hollywood. Show business is a very high profile and highly demanding profession. If you watch the lives of those in the business you generally see only two groups: health nuts or drug users. They either reach for nutrients to supply the building blocks they need to build energy levels they need to cope with their fast paced lifestyle or they use drugs to force their bodies/brains to keep up the fast pace. It is simple to see which of those choices coincides with the Savior’s teachings.

One extremely critical point for all Christians to understand is the serotonin connection to spirituality. Antidepressants as well as the new atypical antipsychotics work by increasing levels of the neurotransmitter serotonin. But 50% of the serotonin is metabolized by the pineal gland.

What is the pineal gland? It is the master gland of the body and also known as the “seat of the soul” or our connection to higher, spiritual thoughts. In Eastern religions it is known as the Third Eye and is located right in the center of the brain behind the eyes. The question we need to ask is that if the Pineal gland is overloaded with large amounts of serotonin produced by these drugs, does it interfere with that spiritual connection?

According to patients using these drugs it does. They continually report that they can no longer feel God. One perfect example that comes to mind is that of Elizabeth Bush, the 14 year old girl who shot her best friend at the private Catholic school they attended. Elizabeth’s hero in life was Mother Theresa. Elizabeth planned to devote her life to God and become a nun. So how did she go from that point to a charge of attempted murder almost overnight?

I called her attorney when this happened and told him what happened was likely the result of the use of one of these antidepressants. He did not show much interest, but said he would check. Then the following week Elizabeth was interviewed on 20/20 and asked this very question of how did she go from Mother Teresa as her hero to shooting her best friend at school. Her reply was that she could “no longer feel God anymore.”

I called her attorney the following morning and told him I no longer had any question about whether or not his client had been on an antidepressant nor any question about its contribution to causing this tragedy. With that new evidence about her inability to feel God anymore, in my mind, I knew. At that point he asked me to hold for a minute and when he returned he said through the rustling of papers, "Paxil. Is Paxil one of those drugs?"

So, as dangerous and life-threatening as these drugs can be, even worse is the possibility that we can be severed from the spiritual by these drugs. Not only can they produce physical death, but also spiritual death.

Where did we go wrong?

Clearly we have underestimated Satan and his potential to pull us into his web of deceit and debauchery. Just because he is evil, does not mean he is stupid. He has much knowledge, far more than we do. Not more power than we do, because we do have the strength to overcome all with the help of the Savior. But we must be constantly aware of his cunning craftiness when it comes to his power to deceive. This awful situation in which we now find ourselves is a call for humility and faith and a reminder to always turn to the Savior in ALL things rather than trusting in the arm of flesh.

[Additional critical information: In November of 2010 Dr. John Ioannidis, considered the world's leading expert on medical research, confirmed what John warned us of in Rev. 18:21-24 when he spoke of the deception that would cover the earth deceiving "prophets, saints and all good men" resulting in death. In the article titled "Lies, Damn Lies and Medical Science," Dr. Ioannidis states that at this point he believes up to 90% of medical research is tainted or even completely bogus due to influence (\$\$\$\$) from the industry. To demonstrate the seriousness of this situation he stated he is not sure medical science will be able to survive this! That interview can be found here:

And yet according to Dr. Ioannidis, this is exactly what you are doing every time you walk into a doctor's office!]

**WITHDRAWAL WARNING:** In sharing this information about adverse reactions to antidepressants I always recommend that you also give reference to my CD on safe withdrawal, Help! I Can't Get Off My Antidepressant!, so that

we do not have more people dropping off these drugs too quickly – a move which I have warned from the beginning can be even more dangerous than staying on the drugs!

The FDA also now warns that any abrupt change in dose of an antidepressant can produce suicide, hostility or psychosis. These reactions can either come on very rapidly or even be delayed for months depending upon the adverse effects upon sleep patterns when the withdrawal is rapid!
